

The **Zoom Medical Telecart** is the most effective way to bring video conferencing into urgent or emergency care environments. Designed specifically to support remote care applications, this Plug n' Play solution is pre-configured with Zoom Room Software* to be "out of the box ready", allowing your team to literally roll out Video Conferencing in real time.

Key Features:

- Native **Zoom Room** configuration is ready for conferencing.
- Create or Join calls – on the fly, or by provisioning the device to a calendar.
- Push to Join Scheduled Conferences with a single button.
- Automatically join scheduled conferences for Zero Touch Meetings allowing hands free operation.
- Integrated Speakers, Microphone and Camera provide a simplified interface.
- HIPAA/PIPEDA plans available
- Rechargeable battery for true mobile applications.
- Engineered for easy sanitation.
- Purchase includes up to 4 hours of remote setup assistance and 1 year of hardware support.

Additional options include:

- Expert On-Site Installation - Contiguous US - \$1,560
- Ongoing Care for Scheduling, Training and Call Support - call for quote

**Requires Zoom Subscription.*
